“ Each week the Technical Training Academy players will work with a UKIS Coach on a technical aspect of the game. ”

A great opportunity for players to receive additional training.

Technical Training Academy

The 'TTA' is a specialized player development program during your current season, providing additional coaching based around progressive week-on-week skill development.

Our coaches come directly to your community for a pre-determined period of time.

Designed For You

Many organizations have players that do not make travel teams or cannot commit to teams because of multi-sport obligations.

A Technical Training Academy is designed to work around these challenges and give players the opportunity to improve through functional training with a professional UKIS coach.

Program Includes

- 8-10 week program
- Academy Dri-Fit Shirt

- Soccerfit workbook & skills videos
- Technical skill based training

- Functional sessions
- Small sided games

Why Should You Offer This Program To Your Organization?

Our professional coaches are able to deliver a program that has engaging soccer activities combined with age appropriate developmental sessions. This is a great way to offer supplementary training to your players during regular season play.
